COUGAR UIX™ SYSTEM

The COUGAR UIX™ SYSTEM is the ultimate gaming device configuration tool. This user-friendly software allows you, through an intuitive interface, to fully configure all compatible COUGAR peripherals with a single application, integrating all of them and unleashing their full power. It will also allow you to synchronize the configuration profiles of mouse and keyboard so that when one changes its profile, the other changes to the corresponding profile without need for further configuration, helping you save time. Another important feature is the ability to record and store macros for both mouse and keyboard in a “Macro Arsenal” that will allow you to use them in any compatible COUGAR keyboard or mouse without recording it again. Convenience and compatibility on a fully featured device management application.
